

# Emergency Hazard Management Recipients' Spotlights

## **Stephen Bjune**

Received his EHM certificate in 2009, has been working for **Texas A&M Engineering Extension Service** for over 10 years. As a **training manager**, he ensures each member of the Texas Task Force 1 is being properly trained to conduct their duties as part of the DHS FEMA US&R Position Description.

## **Sara Hamideh**

Received her certificate when she finished her doctoral program in 2015, she is now working as an **assistant professor in Iowa State University**. Her research focuses on planning for resilience and uses both qualitative and quantitative methods to understand and inform planning for long-term recovery and resilience with particular attention to social vulnerability.

## **Hung-Lung Wei**

Dr. Wei received his certificate with his Ph.D. in Urban & Regional Science in 2016. Now, he continues his academia path and became an **Assistant Professor in the Department of Security, Fire, and Emergency Management in John Jay College of Criminal Justice**. He focuses on multidisciplinary research projects on both natural and manmade hazards.

## **Emily Sullivan**

A more recent MUP graduate with EHM certificate in 2018. She moved back to her hometown Arlington, VA – a compact urban community located 6 miles northwest of Boston, and is now working as the **Environmental Planner & Conservation Agent** for her town.

## **Martin Siwek**

Graduated with his EHM Certificate along with his Master degree of Urban Planning in 2010. Now he is working as **the Disaster Recovery Program Manager with ICF** – A forward-thinking consulting company that helps to plan, design, and implement transformative projects related to Disaster recovery, energy, social problems and so much more.
